I'm **Elias Pinheiro**

Software developer

AGE	22
ADDRESS	R. Quinta lt 102 Parceiros - Leiria
E-MAIL	schmeisk@gmail.com
PHONE	+351915896602

I have an open mind and always searching for new ideas to improve each day and I'm an independent person who's able to adapt to new conditions, as I've lived as an Erasmus student in Croatia and Brazil for five months. And I won a program (VIOP) and I went to Finland for fifteen days at the Helsinki University.

I have ability to work under pressure and striving for customer satisfaction as a result of working with sales and being waiter.

I have great interpersonal and communication skills, I've worked with sales, multilevel marketing. I have a passion to do lectures, I already did some presentations about "Living abroad", also for programming and solve problems. That feeling when I solve a big problem is awesome and I would like to have that this feeling all of my life.
